

July 2019

Dear Parent/Carer,

At Tanfield school Maths department, from September 2019 we require all students to bring their own calculator to Maths lessons. This will allow them to be well prepared and will also help them in other subject areas.

The calculator that you will need to purchase is the **Casio FX-83GTX Scientific Calculator**.

It comes in black, blue & pink and as a school we can offer a discounted price of £8.30 on the black version. If you would like to purchase a calculator from school they can be ordered **via parent pay before Wednesday 17th July**.

The calculators will then be distributed in the new term in September. They are also available to purchase from Asda or online.

Yours sincerely,

M Creegan

Mr M Creegan
